*Albizia*

*Leguminosae*

[*Fabaceae/Mimosaceae*]

*Albizia* commemorates a Florentine nobleman Filippo degli Albizzi who is believed to have introduced the silk tree (*Albizia julibrissin*) to Europe in 1749 from Istanbul.

Members of this family absorb nitrogen from the air. Through the bacterial nodules on their deep growing roots they will introduce nitrogen to the soil (and aerate it) to the benefit of neighbouring plants and any following them in the same soil.
