*Bouteloua*

*Gramineae*

[*Poaceae*]

*Bouteloua* commemorates two Spanish botanist brothers, Claudio (1774-1842) and Estéban (1776-1813) Boutelou. The information about them is unclear but it would seem that Claudio studied in France and became professor of agriculture in Madrid, with subsequent similar posts in Alicante and Seville. Alone, and with his brother, he wrote several books, in particular *Tratado de la huerta, ó método de cultivar toda clase de hortalizas*.
