*Callisia gentlei* var. *elegans*

[Synonyms : *Callisia elegans*, *Setcreasea striata*]

**STRIPED INCH PLANT** is a succulent tropical evergreen perennial. Probably native to Mexico, Guatemala and Honduras, it has finely white-striped, velvety dark green leaves. It is also known as *Callisia* (Dutch), *Callisie* (German), *Pikkuliisanjuoru* (Finnish), and *Strimreva* (Swedish).

*Elegans* means 'elegant'.

It is used as ornamental groundcover by gardeners.
