*Calopogon pulchellus*

[Synonyms : *Calopogon tuberosus*, *Limodorum tuberosum*]

**GRASS PINK** is an orchid. Native to eastern North America it has small, sweet-smelling pink flowers each with a lip bearing a beard of yellow, orange and rose hairs.

It is also known as Bearded pink, Calopogon, Grass pink orchid, Meadow gift, Meadow pink,

Pretty calopogon, Rosewings, Swamp pink, and Tuberous-rooted calopogon.

*Pulchellus* is Latin (very pretty) meaning ‘pretty’.
