Caucalis platycarpus

[Synonyms : *Caucalis bishottii*, *Caucalis daucoides*, *Caucalis daucoides* var. *muricata*,
Caucalis lappula, *Caucalis platycarpus* subsp. *muricata*]

SMALL BUR-PARSLEY is an annual. Native to western Asia and to Europe it has tiny, white or pink flowers.

It is also known as *Acker-Haftdolde* (German), Carrot burr parsley, *Dejvorec stroškový* (Czech), *Dejvorec velkoplodý* (Czech), *Eilunberllys Bychan* (Welsh), Hen's foot, *Ježec lopúšikový* (Slovak), *Ježec velkoplodý* (Slovak), *Kletten-Haftdolde* (German), and *Piggkörvel* (Swedish).

Platycarpus is derived from Greek *platy-* (wide) and *carpo-* (fruit) components meaning 'wide seeded'.
