Ceratophyllum submersum

[Synonyms : *Ceratophyllum muticum*]

SOFT HORNWORT is a deciduous aquatic perennial. Native to Asia, Europe and North Africa, it has minute, whitish flowers.

It is also known as *Nystykarvalehti* (Finnish), *Rožkatec pohřížený* (Slovak), *Růžkatec bradavčitý* (Czech), *Růžkatec potopený* (Czech), Spineless hornwort, and *Vårtsärv* (Swedish).

The plant sinks in Autumn and rises in Summer.

Submersum means 'partially submerged or under water'.
