Citrus x tangelo

[Synonyms : *Citrus reticulata x paradisi*]

TANGELO (English, French, German) is an evergreen tree.

It is also known as *Aegle* (French), *Rumeliini* (Finnish), and Ugli.

An American, W.T. Swingle (1871-1952) of the Plant Introduction Laboratory of the United States Department of Agriculture in Florida, developed the tangelo with its baggy-shaped orange and green coloured fruit in 1897.
