Clarkia amoena

[Synonyms : *Clarkia grandiflora*, *Godetia amoena*, *Godetia grandiflora*, *Godetia vinosa*,
Oenothera amoena, *Oenothera lindleyi*, *Oenothera prismatica* var. *amoena*]

GODETIA is an annual. Native to coastal northern California (United States), it has small dark-centred, glossy lilac to pink flowers with white to lavender stamens.

It is also known as *Atlasblomma* (Swedish), Farewell-to-Spring, Satin flower, and Summer's darling.

There are many familiar cultivated varieties.

Amoena is Latin (pleasant, delightful).
