*Cornus suecica*

[Synonyms : *Arctocrania suecica*, *Chamaeperichlymenum suecicum*, *Cornella suecica*, *Swida suecica*]

**DWARF CORNEL** is a creeping perennial. Native to Europe (including Britain), Asia, Greenland and North America, it has petal-like, white leaves (bracts).

It is also known as Dogwood, *Hönsbär* (Swedish), *Dřineček švédský* (Czech), Lapland cornel, Northern dwarf cornel, and *Ruohokanukka* (Finnish).

*Suecica* means ‘of or from Sweden’.

The fruit are enjoyed by Alaskan Inuits.
