**FROG ORCHID** is an orchid. Native to northern temperate regions, it has short greenish-yellow spurred, reddish-brown tinged, yellowish-green flowers with a strap-shaped brownish-green lip.

It is also known as Frog-bit orchis, *Groene nachtorchis* (Dutch), *Grönkulla* (Swedish), *Grönyxne* (Swedish), *Grüne Hohlzunge* (German), Long-bract frog orchid, Long-bract green orchis, *Orchis grenouille* (French), *Orchis vert* (French), *Paladr Blodeuwyrdd* (Welsh), *Testicolo di volpe* (Italian), and *Vemeniček zelený* (Czech).

*Viridis* is Latin (green).
