*Lavandula multifida*

**EGYPTIAN LAVENDER** is an evergreen shrub. Found on western Mediterranean coasts, in Calabria in Italy and in Sicily, it has small, lavender blue flowers.

It is also known as *Alfazema* (Portuguese), *Alfazema-de-folha-recortada* (Portuguese), *Alhucemilla* (Spanish), Branched lavender, Cut-leaved lavender, *Egyptinlaventeli* (Finnish), and *Levandule rozeklaná* (Czech).

*Multifida* is Latin (cloven into many parts) meaning ‘many times divided’.
