*Parodia*

*Cactaceae*

*Parodia* can commemorate one or more people, including Dr. Domingo Parodi and Professor Lorenzo Raimundo Parodi. The most likely candidate appears to be uncertain in this case. First a South American pharmacist, Dr. Domingo Parodi (1823-1890), who was also recognized as a student of Paraguayan flora. Then an Argentinian botanist, Professor Lorenzo Raimundo Parodi (1895-1966), who was noted for his work on South American grasses.
