*Polypogon viridis*

[Synonyms : *Agrostis verticillata*, *Agrostis alba* var. *verticillata*, *Agrostis aquatica*, *Agrostis condensata*, *Agrostis decumbens*, *Agrostis semiverticillata*, *Agrostis stolonifera* var. *verticillata*, *Agrostis verticillata*, *Agrostis villarsii*, *Agrostis viridis*, *Nowodworskya semiverticillata*, *Nowodworskya verticillata*, *Phalaris semiverticillata*, *Polypogon littoralis* var. *muticus*, *Polypogon semiverticillatus*, *Polypogon subverticillata*, *Vilfa verticillata*]

**WATER BENT** is a perennial grass. Native to warm temperate regions it has green or purplish-green spikelets.

It is also known as Beardless rabbitsfoot grass, Green bentgrass, and *Tofsven* (Swedish). *Viridis* is Latin (green).
