Potentilla aurea

[Synonyms : *Potentilla halleri*]

GOLDEN POTENTILLA is a perennial. Found in the Alps of central Europe it has small often orange-centred, bright yellow flowers.

It is also known as *Fingerkraut* (German), Golden cinquefoil, *Gold-Fingerkraut* (German), *Gullfingerört* (Swedish), *Kultahanhikki* (Finnish), *Mochna zlatá* (Czech), *Nátržník zlatý* (Slovak), and *Potentilla dorée* (French).

Aurea means ‘golden’ with reference to the flowers.

Golden potentilla is used locally for medicinal purposes.
