Potentilla neumanniana

[Synonyms : *Potentilla minor*, *Potentilla opaca*, *Potentilla tabernaemontani*, *Potentilla verna*, *Potentilla verna* subsp. *vulgaris*]

SPRING CINQUEFOIL is a mat-forming evergreen perennial. Native to northern, western and central Europe it has small yellow flowers with many stamens.

It is also known as *Leamhnach an Earraich* (Scots Gaelic), *Pikkuhanhikki* (Finnish), and *Småfingerört* (Swedish).

This flower is cultivated as ornamental ground cover or in rock gardens.
