Pyracantha rogersiana

[Synonyms : *Pyracantha crenulata* var. *rogersiana*, *Pyracantha rogersiana* var. *aurantiaca*]

ASIAN FIRETHORN is an evergreen shrub. Native to south-western China it has tiny, white flowers with many stamens followed by tiny yellow to orange-red berries.

It is also known as Firethorn, and Roger's firethorn.

Rogersiana commemorates G.L. Coltman-Rogers of Stanage Park who was the first exhibitor to display this species at one of the Horticultural Society's shows at Vincent Square in London.

It is cultivated as an ornamental.
