Senecio erucifolius

[Synonyms : *Senecio tenuifolius*]

HOARY RAGWORT is a perennial. Native to Europe it has yellow flowers.

It is also known as *Creulys Llwyd* (Welsh), *Finbladsstånds* (Swedish), *Flikstånds* (Swedish), *Hårdbladsstånds* (Swedish), Hoary groundsel, *Raukenblättriges Greiskraut* (German), *Raukenblättriges Kreuzkraut* (German), and *Starček roketolistý* (Czech).

Erucifolius is derived from the genus name *Eruca* and Latin *-folia* (leaved) components meaning ‘with leaves like those of that (rocket) genus’.
