*Thelypteris limbosperma*

[Synonyms : *Aspidium montanum*, *Dryopteris limbosperma*, *Dryopteris oreopteris*, *Lastrea limbosperma*, *Lastrea oreopteris*, *Oreopteris limbosperma*, *Polypodium limbospermum*, *Polypodium oreopteris*, *Polystichum montanum*, *Polystichum oreopteris*, *Thelypteris oreopteris*]

**LEMON-SCENTED FERN** is a tufted fern. Native to Europe it has tapering, yellow tinged, lemony-scented bright green fronds.

It is also known as *Bergbräken* (Swedish), *Bjerg-Dunbregne* (Danish), and Mountain fern. The fronds are fragrant when bruised.

*Limbosperma* is derived from Latin *limbus* (fringe, border, hem) and Greek *sperma* (seed) components.
